NAAC Re-Accredited with 'B' Grade

7.1.3 Waste Management

The Government Degree College, Razole has sustainable promotion as essential component of education apart from the good basic teaching and learning of the Institution. The waste management is one of the part and parcel of the institution. It played a vital role minimizing the wastage on the campus. It has maintained effectively by the staff and students of the college. There were no hazards of the waste management campus.

Solid waste Management

- The solid waste management has been take part different places to keep up the wastage. Dustbins are being provided at various departments in the campus. To ensure that solid waste management is segregated at the source. The garbage and waste material dumped at the plantation to create energy to the plants and saplings for the growth.
- For the personal protection it has been advised to use masks while handling the waste. Moreover, wearing head gears, eye covers, apron, gloves and boots as they help in fighting the transmission of infection. It is also advised to immunize against Hepatitis B for necessary precautions.

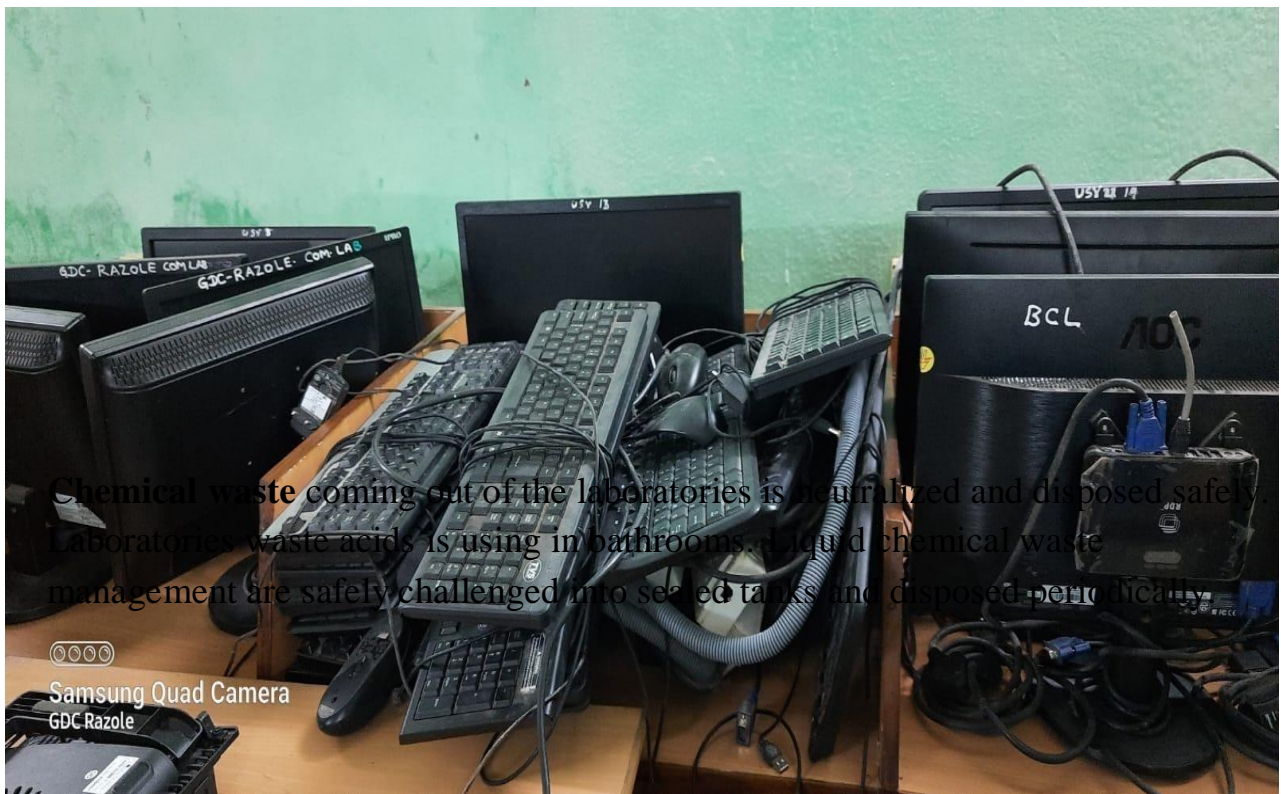

LIQUID WASTE MANAGEMENT

Liquid and semi-liquid waste management are safely challenged into sealed tanks and disposed periodically. The liquid chemical waste coming out of the laboratories is neutralized and disposed safely. The college is situated in a low lying area with elevated roads and residential areas around. In the college garden to grow mango grove, banana grove and number of root bearing and flowering plants especially, during the rainy season a lot of rain water, floods in the campus from all the directions. To hold and observe this running water the students of NSS dug a number of pits all pivotal points in the college and store the water.

E-WASTE MANAGEMENT

The Department of Computer and Commerce gave a slogan “**My waste, my responsibility**” computers and electronic devices constitute major sources of e- waste of degree college level. Disposal of such materials is sought through selling them to dealers outside campus. The material is usually set apart for reuse, resale, and disposals. By the instructions of the commisionerate of collegiate education, Vijayawada. Every year each department has disposed E-Waste management.

Chemical waste coming out of the laboratories is neutralized and disposed safely. Laboratory waste acids is using in bathrooms. Liquid chemical waste management are safely challenged into sealed tanks and disposed periodically.
