Dr.P.Saibabu garu principal of this college chaired the meeting. The Chief Guest of this function G.Srinivas Rao ASNM Degree college, Palakolu. Dr.P.saibabu garu address the students to imparting The Michelson-morley experiment which is the need of the hour. Students must be imparting good knowledge in theory and practical of physical sciences. The chief guest of this function Dr.Srinivas rao addressed the students The Michelson-Morley Experiment. Sound waves need a medium through which to travel. In 1864 James Clerk Maxwell showed that light is an electromagnetic wave. Therefore it was assumed that there is ether which propagates light waves. The Michelson-Morley experiment (circa 1885) was performed to detect the Earth’s motion through the ether as follows: The viewer will see the two beams of light which have traveled along different arms display some interference pattern. If the system is rotated, then the influence of the “ether wind” should change the time the beams of light take to travel along the arms and therefore should change the interference pattern. The experiment was performed at different times of the day and of the year. NO CHANGE IN THE INTERFERENCE PATTERN WAS OBSERVED!The vice principal of this college sri.padmanabham garu ,Hod of Physics and other senior faculty members attended the meeting.G.srinivas rao being honoured by Dr.P.Saibabu garu and Hod of physics Padmanabham garu.All the students took part in the event.
